

# Static Grizzly Feeders

A PRODUCT OF THE MATERIAL HANDLING EQUIPMENT FAMILY

Our heavy duty static grizzly feeders allow customers to size materials through a slotted set of grizzly bars with adjustable spacing. This reliable and durable equipment can effectively prepare and screen your materials.

The static grizzly feeders are designed to be fed with a wheel loader or excavator with the oversize sliding to the front of the unit and the finer material passing through the grizzly to be picked up from the back.

## Screen materials

- Rock
- Sand and gravel
- Coal
- Granular soils
- Other non-compacting bulk materials

## Benefits

- Rugged design
- Wide target
- Adjustable opening
- Well-suited for materials less than 24"

Custom Solutions to Unique Challenges

## STATIC GRIZZLY FEEDERS

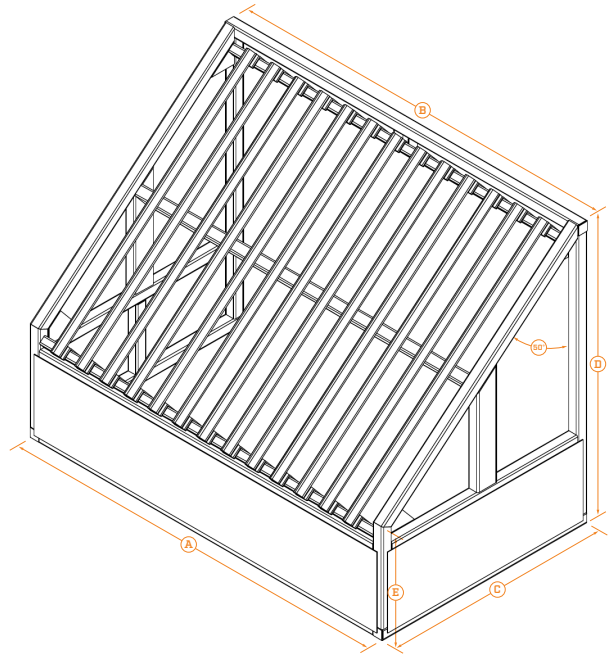

### Standard Specifications

- 12' or 14' wide heavy duty static grizzly feeder
- Structural frame of 4" x 4" square tubing with 0.25" steel plate on lower area
